

RAJESH PATRA

Midnapore, West Bengal, India • Email: patrarajesh2006@gmail.com • Portfolio: rajcode-portfolio.netlify.app
GitHub: github.com/RajCode-xs1dd • LinkedIn: linkedin.com/in/rajesh-patra • Twitter/X: [@RajeshPatraCS](https://twitter.com/RajeshPatraCS)

TECHNICAL SKILLS

Languages:	Kotlin, Java, C++, Python, JavaScript (ES6+), PHP, SQL
Web Technologies:	HTML5, CSS3, Tailwind CSS, Bootstrap 5, React.js, RESTful APIs
Android & Systems:	Android SDK, WallpaperService, Canvas API, Linux/Unix
Developer Tools:	Git, GitHub, Netlify, VS Code, Android Studio
Core Competencies:	Data Structures & Algorithms (DSA), OOP Architecture, Database Systems (DBMS)

EDUCATION

Midnapore College (Autonomous) — B.Sc. in Computer Science (4-Year Honours)	2024 – 2027
■ Academic Standing: Cumulative CGPA of 6.5 / 10.0 (Completed 2 Years of comprehensive degree coursework).	
■ Coursework: Data Structures & Algorithms, OOP (C++/Java), DBMS, Operating Systems, Computer Networks.	
Sabang Saradamoyee High School (H.S.) — Higher Secondary (Class XII)	2024
■ Achieved 85.00% with focused concentrations in Pure Science and Computer Science.	
Kundalpal Kiranbala Vidyamandir — Secondary Education (Class X)	2022
■ Completed Secondary Board Examinations with 84.56% .	

PROJECTS & SOFTWARE ENGINEERING

Hacker Style Wallpaper Engine Kotlin, Android SDK, Canvas API	⚡ View Code	Android
■ Engineered a native Android live wallpaper rendering real-time Matrix digital rain using Android WallpaperService .		
■ Optimized character buffer algorithms to maintain a steady 60 FPS with minimal battery and CPU consumption.		
NEXUS 2K26 Media Vault JavaScript, HTML5/CSS3, Netlify	🔗 Live App	Cloud Platform
■ Engineered a centralized digital media vault serving students and faculty for Midnapore College CS Department event.		
■ Implemented category filtering (Ceremony, Cultural, Candid) and responsive asynchronous batch photo uploads.		
Client-Side Image Manipulation Suite JavaScript, Cropper.js, HTML5	🔗 Live Tool	Web Tool
■ Built a 100% private browser utility for lossy compression, DPI customization, and dynamic aspect-ratio cropping.		
■ Executed all image processing locally via HTML5 Canvas with zero backend transfer, guaranteeing user privacy.		
Nokia Snake JS Arcade Engine JavaScript (ES6+), Canvas API	🎮 Play Live	Interactive App
■ Recreated the classic Nokia Snake arcade game with custom collision logic, 3 difficulty speeds, and high-score caching.		
■ Implemented responsive virtual touch controls for mobile screens and custom dynamic food timer bars.		
NeuroZip Algorithmic Number Puzzle JavaScript, DOM Engine	🎮 Play Live	Logic Engine
■ Developed a cognitive puzzle game implementing dynamic array shuffling and real-time state evaluation algorithms.		
■ Built multi-level difficulty tracking with timer precision and move efficiency counters.		
RajCode Central Developer Platform Tailwind CSS, JavaScript, Netlify	🌐 Live Hub	Production Hub
■ Built a modular hub cataloging 13+ production-ready open-source apps with instant fuzzy search and GitHub API integration.		

CERTIFICATIONS & MILESTONES

- **Smart India Hackathon (SIH 2025):** Active participant; collaborated in rapid software prototyping, technical ideation, and UI implementation under strict hackathon constraints.
- **Diploma in Information Technology Application (DITA):** Completed 1-Year National Certification covering core computer software applications and development workflows (2024).
- **Competitive Problem Solving:** Actively practicing Data Structures & Algorithms on **LeetCode** focused on time/space complexity optimization in arrays, strings, and sorting algorithms.
